About FLoC

Over the past forty years, there has been extensive, continuous, and growing interaction between logic and computer science. In many ways, logic provides computer science with both a unifying foundational framework and a powerful tool for modeling.

Logic is considered "the calculus of computer science," playing a pivotal role in diverse fields such as artificial intelligence, computational complexity, distributed computing, database systems, hardware design, programming languages, and software engineering.

The Federated Logic Conference (FLoC) unites the ten leading international conferences focused on mathematical logic and its applications in computer science.

Since 1996, FLoC is organized every four years and counts with over 2,000 attendees.

Looking ahead, FLoC is set to take place in Portugal in 2026, highlighting the nation's growing role as a hub for academic and technological excellence in computer science and logic research.

PROGRAMME

July²⁶

13 17 SUMMER SCHOOL

18 19 WORKSHOPS

20 23 WEEK 1

Conferences

32nd International Conference on Principles and Practice of Constraint Programming **(CP)**

11th International Conference on Formal Structures for Computation and Deduction **(FSCD)**

42nd International Conference on Logic Programming **(ICLP)**

23th International Conference on Principles of Knowledge Representation and Reasoning **(KR)**

41st Annual ACM/IEEE Symposium on Logic in Computer Science **(LICS)**

29th International Conference on Theory and Applications of Satisfiability Testing **(SAT)**

24 25 WORKSHOPS

26 29 WEEK 2

Conferences

38th International Conference on Computer Aided Verification **(CAV)**

39th IEEE Computer Security Foundations Symposium **(CSF)**

13th International Joint Conference on Automated Reasoning **(IJCAR)**

17th International Conference on Interactive Theorem Proving **(ITP)**
